CYCLING.

Efforts are said to have been made to secure for the N. C. A. a footbold in the local eyeling racing field, but they have met with an entire lack of success. The L. A. W. has conducted cycle racing in America for many years and has conducted it cleanly, honestly and with ability-to such an extent, in fact, that bleycle racing ranks with the national game in the enjoyment of an enviable reputation as a clean, honest sport. The N. C. A. may not be dishonest, its promoters probably have ability, but it is more plants that was born in an at-mosphere of spite, and at the best it carnot hope to fill the field which the L. A. W. occupies. Certainly there is no room for it in this neck o' the woods.

International Cycle Touring. President Keenan, of the League of

American Wheelmep, will sail for Europe this week to attend the meeting of delegates to the International Touring Association. The meeting will be held in London and is considered one of the most important gatherings of cyclists held in recent years. The organization was partially perfected last year, but owing to the non-attendance of some of the countries interested, it was deemed advisable to postpone the final organization until this year, when the Cyclists' Touring Club, of England, invited the delegates to meet in London. There the meeting will be held the intter part of this month. The plan as outlined now is to so perfect the organization that there will be a perfect reciprocity of privileges for all affiliated wheelmen in the countries of England, France, Germany, Italy, Switzerland, Belgium, Denmark, Spain, Norway, Sweden, the United States, Canada and Mexico. These privileges will include the exchange of discounts at hotels, the supplying of information by local officials, the use of road maps and guides, and, in fact, any of the privileges of the organization in which a tourist, a member of any of the other organizations, may be riding. It is thought this will be, the most important alliance of wheelmen ever perfected, as it appeals to the greatest class of cyclists—those who enjoy the pastime nurely for the touring and general out-door riding it affords them. It will be particularly advantageous to members of the L. A. W., as the large majority of tourists come from this country. delegates to the International Touring Association.
